

WEDDING EVENT MANAGER

TUSHAR D M - 16CO251 - tushartdm117@gmail.com
DARSHAN KUMAR - 16CO236 - darshusmile18@gmail.com

AIM:

The aim of the website is to store the contact details of all the experienced agents who manage the weddings.

OBJECTIVE:

The aim of the website is to help the community planning for marriage by providing the contact details of wedding event managing agents, caterings and marriage halls.

SUMMARY:

We are creating a website which has the contact details of the agents who look after the decoration of marriage halls, agents who book good caterings and also provides you the contact of various marriage halls.

Even in this modern world we have to go to marriage halls and ask for the dates it is available so that we can book the halls. We have to go to various caterings to know how their food tastes and we might get confused as to which one to book. We should also look for an agent who can handle the decoration of the marriage halls. So, instead of going to so many places and confusing ourselves with the decision to make they can use our website to book all they want.

TOOLS:

Database : MySQL

Server Side Script : PHP

Front-end part : HTML, CSS, Bootstrap
